

Social Media for the Healthcare Vertical

We've provided images and copy for three social media posts to promote your offering healthcare practices. The images are sized to work for LinkedIn, X (Twitter), and Facebook.

Social Post #1

Focus on your patients, not your phone system. Learn how we help healthcare practices stay connected. <<link to your website>>

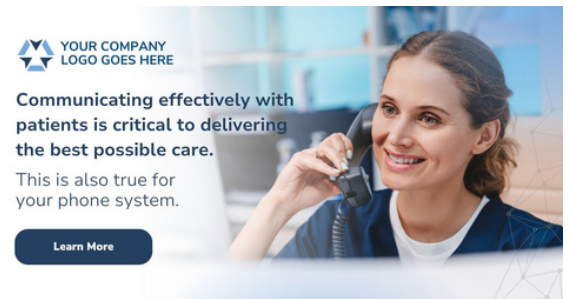

For X: Focus on your patients, not your #phonesystem. Learn how we help #healthcare practices stay connected. <<link to your website>>

Social Post #2

Communicating effectively with patients is critical to delivering the best possible care. This is also true for your phone system <<link to your website>>

For X: Communicating effectively with patients is critical to delivering the best possible care. This is also true for your #phonesystem <<link to your website>>

Social Post #3

A phone system that understands the needs of your #healthcare practice. Reliable, flexible, cost-effective communications you can count on. <<link to your website>>

For X: A #phonesystem that understands the needs of your #healthcare practice. Reliable, flexible, cost-effective communications you can count on. <<link to your website>>
